**Description**

We seek an experienced member for our team, at the Postgraduate / MSc level and a background in Information Systems. The candidate will participate in the R&D and Project Management activities of FORTH in the context of the project “5G experimentation environment for 3rd party media services – 5GMediaHUB”, funded under Horizon 2020, ICT-41-2020, “5G PPP – 5G innovations for verticals with third party services”.

5GMediaHUB is coordinated by CTTC, Spain and FORTH-ICS is a member of the project consortium. The project aims to help EU to achieve the goal of becoming a world leader in 5G, by accelerating the testing and validation of innovative 5G-empowered media applications and NetApps from 3rd party experimenters and NetApps developers, through an open, integrated and fully featured Experimentation Facility. The project will build and operate an elastic, secure and trusted multi-tenant service execution and NetApps development environment based on an

open cloud-based architecture and APIs, by developing and integrating a testing and validation system with two existing well-established 5G testbeds (by CTTC and Telenor) for enabling the fast prototyping, testing and validation of novel 5G services and NetApps. Due to the international project consortium (17 partners from 9 countries), prior experience with European or national R&D projects is required and communication, coordination and management skills are necessary.

**Required qualifications:**

- MSc degree in Information Systems
- Demonstrated experience with EU- and national- funded projects
- Physical presence at FORTH, Heraklion, Crete for the duration of the position
- Rich experience in user-centred design projects (requirements elicitation, interface, interaction and experience design, expert/heuristic evaluation and user testing)
- Thorough knowledge of design guidelines and heuristics, particularly for Ambient Intelligence (AmI) environments, applications and services
- Communication, coordination and management skills
- Willingness and ability to work cooperatively within a team, to learn, and to adapt to the projects
- Excellent knowledge of English

**Desired qualifications:**

- Research experience - Publications in the field of computer science
- Knowledge of programming languages: C, Java, PHP
- Fulfilled military service obligations (for male applicants)

**Application Submission**

Interested candidates can submit their applications via <http://www.ics.forth.gr/jobs/en/> using the link “Apply for the position” under the announcement. Applications must include:

- Detailed CV, including qualifications and interests in the above areas;
- Scanned copies of academic titles;
- Detailed presentation of prior work, studies and/or publications, references etc. demonstrating knowledge of desired skills (e.g. experience on specific programming languages and hardware platforms).
